

## SMOKE OR FIRE IN COMPUTER ROOM 2265

**IF IT IS NOT SAFE:**      **ACTIVATE the building fire alarm** located just inside the door. Another fire alarm call box is located at the end of the hall (break glass)

**EXIT** the computer room

IF THIS OCCURS:	CAUSE	DO THIS:
YOU SMELL SMOKE OR UNUSUAL ELECTRICAL ODOR	An electrical device may short-circuit, removing power.	<p style="color: red;"><b>SMELL SMOKE?</b></p> <p>Call <b>911</b> to report the odor            If safe to do so, locate the source            Remove power to the system if possible            Call x6999 to report the odor to the security operations center            Contact the Area Safety Leader posted outside the room.</p>
YOU SEE VISIBLE, CONTINUOUS SMOKE OR FLAMES	From any cause	<p style="color: red;"><b>VISIBLE CONTINUOUS SMOKE/FLAMES?</b></p> <p>Call <b>911</b> to report the presence of smoke or flame            If safe to do so, locate the source            Remove power to the system if possible</p> <p>Emergency Power Off (EPO) Lift and Pull            Fire Alarm Call Box inside door Lift and Pull            If it is safe to do so and you are trained, use the Clean Agent fire extinguisher located just inside the door</p>
FIRE ALARM BELL/STROBE	<b>BUILDING FIRE ALARM</b>	<p style="color: red;"><b>STOP WORK AND EXIT THE BUILDING</b></p> <p>If there is no smoke or odor in the computer room, most likely a fire alarm has been activated elsewhere in the building</p>
